

## *Endless possibilities with Terratek® plus liquid additives*

Liquid additives can add both functionality and differentiation to a product. Our Terratek® products are well-suited to adding liquids like essential oils, fragrances, attractants or repellents. The biobased materials absorb and retain liquids. Something not possible with petroleum-based plastics.

Now some of your favorite products can become multi-functional and unique. They'll be better than you ever imagined! The liquid additives can be used to scent toys, air fresheners, make products insect repellent, or even create deer attractant pellets. The possibilities are endless.

To learn more about Terratek® and liquid additives, contact us today at 620-273-8919 or visit us at NPE 2015 booth S19200. We look forward to hearing from you!
